BANKHEAD BILL TO BE LAW

Here and There

Editorial By ALEX. H. WASHBURN

THE Democratic party pledged the nation at Chicago in 1932 it would balance the federal budget—a task at which the Republicans had failed.

Self-Discipline Is Seed of Greatness

Pastor Declares Stupidity of Sin Traceable to Softened Nations, Says Rev. Rule

A REVIVAL SERIES

Preaches Thursday on "When a Man Comes to Himself"

Attendance at the revival services in First Methodist church is growing. Wednesday night the largest congregation for any evening service heard the pastor, the Rev. E. C. Rule, in the third of his sermons on the prodigals, the theme of the series being, "The Inexhaustible Love," and the sermon for Wednesday night being, "Waste and Want."

Developing the theme, that there is a definite relation of cause and effect between our living and the low ebb or loss of our spiritual life, the preacher emphasized the fact that one may be a prodigal who has wasted opportunity, character and life, and yet be outwardly prosperous.

From Waste to Want
He introduced the subject with some letters written out of the personal experience of living men. Then he said:

"The prodigal spent his substance in riotous living and came to be in want. He was hungry and kindness. He joined himself to a citizen of the far country. This was the final product of having found the wrong way. It was the final sacrifice of the last remnant of religion, character, self respect. He had traveled away from his father. Spiritually it would have been the same had he never come to material loss. He had wasted a soul's chance to life."

After speaking of the results of irreligious living he said:

"He had led an undisciplined life. And the lack of the discipline of high ideals and great convictions is one of the great weaknesses in the lives of many of our people today. We would like to be free of every restriction upon our pursuit of pleasure, ease, gain, honor. Every man and every woman needs the discipline of having some sacred ground. Every boy and girl needs a holy of holies in life. The discipline of such holy regard is the foundation of a true life. Where this is lacking, necessarily becomes the only restraint on greed, ambition, appetite."

"It may be that one of the underlying causes of the present weakness and confusion of our people in the presence of our difficulties is that we have lost the greatness that comes from self-discipline."

Sin Is Stupidity
"Human sin is the greatest stupidity. A college professor said, 'Young men, beware of stupidity. Stupidity is the greatest sin.' Herman Grundt went home and told his father. The father said, 'Herman, beware of sin. Sin is the greatest stupidity.' If any person has ever won an argument with the moral principles upon which life is founded. Many have tried. None have succeeded. Yet so many go on stupidly trying to do so."

The series will continue with a sermon Thursday night at 7:30 o'clock on "When a Man Comes to Himself." The series will be a vocal trio by the Misses Harriet Story, Mary Louise Keith, and Buiola Bayne. "The Garden of Prayer." And there will be a special number by the chorus choir.

The last of the morning series on "Acts of the Apostles" will be given in the service Friday morning at 10 o'clock, the subject at that time being "The Witnessing Church."

Modern Woodmen to Banquet on Friday

M. A. Cobb, of Hot Springs, will be the principal speaker at a meeting and banquet of the Modern Woodmen lodge to be held here Friday night.

Mr. Cobb is state manager of Arkansas Modern Woodmen lodge. His assistant, J. R. Holt, also of Hot Springs, will be a guest and speaker.

Several new members are to be formally accepted at the meeting, which starts at 7:30 o'clock.

A Thought

Grudge not one against another, brethren, lest you be condemned; behold the judgment standeth before the door.—James, 5:9

Each one wishes for his own advantage, rather than that of others.—Terence.

True to his promise, President Roosevelt continued the Democratic congress to go easy in restoring federal allowances to war veterans, and think twice before it restored the pay of federal employees who had been reduced only 15 per cent from the 1929 wage.

The Democratic congress ignored him.

Roosevelt vetoed the bill.

The Democratic congress passed the bill over his veto—the house Wednesday afternoon, the senate Wednesday night.

This is significant: The entire Republican bloc in the senate voted to override the president.

Yet we will hear the Republicans in the congressional campaign this summer shouting, "The Democrats failed to balance the budget!"

Such is politics.

X X X

The Arkansas delegation in congress failed to distinguish itself with any show of political courage.

Only one representative out of seven, Terry of Little Rock, upheld the president in the lower chamber; and only Joe Robinson voted for the president in the senate.

Now that they have booted the administration's leadership on expense, perhaps they will have the courage to vote new taxes to pay the damages.

In round figures it's about 328 million—228 for veterans' allowances, and 100 millions for federal pay increases.

Farm Bureau Unit Is Organized Here

Calhoun and Cornelius Head Hempstead Organization

Farmers representing each township in the county met Wednesday night at Hope city hall at 7:30 and, under the leadership of J. F. Tompkins, president of the American Farm Bureau Federation for Arkansas, and J. F. Porter, president American Farm Bureau Federation for Tennessee, organized a chapter for Hempstead county.

The following officers were elected: E. R. Calhoun, president; T. A. Cornelius, secretary-treasurer.

This is a national-wide movement for organized agriculture and every farmer should be interested in it, according to County Agent Frank Stanley.

Local Stores to Open at 7 Daily

To Remain Open to 10 P. M. This Saturday Only, for Easter Trade

Earlier opening hours during the spring and summer months were agreed upon by a majority of Hope's dry goods and ready-to-wear stores Thursday.

The agreement is to open at 7 in the morning instead of 8, as at present, but to continue closing at 6 p. m., and 9 on Saturday night.

For this Saturday night, to accommodate the pre-Easter crowds, they will remain open until 10 o'clock—but close at 9 on all Saturdays thereafter.

Stores reaching this agreement are: Haynes Brothers, Patterson's, Gorman & Gossell, L. C. Burr & Co., Geo. W. Robinson & Co., Ladies Specialty Shop, Gift Shop, Little's, Scott's, Compton Brothers, Reed-Routon & Co., Bryant & Co., and R. M. LaGrone, Jr., & Co.

Japs Prepare for 1935, Crucial Day for Their Empire

Fight for Naval Parity and Possession of Mandated Islands

TO EXPAND OR DIE

A Champagne Military Power Tries to Live on Beer Revenues

William Philip Simms, famed as a war correspondent and expert on foreign affairs, has started a tour of the world for NEA Service. He will visit the principal cities of foreign countries, interview leading statesmen, and write on the world situation as he sees it. This is the second of his five articles on Japan, the first of several series he will write while on his journey.

By WILLIAM PHILIP SIMMS (Copyright, 1934, NEA Service, Inc.)

Tokio Japan—Arms and munition factories are running full blast in Japan in preparation for what everybody refers to as the coming "grave crisis."

In 1935 and 1936, the war party claims, and the public believes, things will happen which will make or break the Japanese empire.

So, by 1935, the army must be at its peak. The navy must be at its peak. The rank and file of the country must be prepared for any emergency and ready to back the government to the limit.

An 1935 Japan's withdrawal from the League of Nations will become effective. She fears she will be more than ever isolated, with the world against her.

In 1935 will be raised the question of ownership of the South Sea Islands, scattered over the Pacific from Hawaii to the Philippines—the Marshalls, Marianas, Carolines, Yap, and Pelew.

Held under League of Nations mandate, Japan has not the slightest intention of giving them up. She regards them as of the greatest strategic value.

Naval Crisis Faced

In 1935 will be held the crucial naval conference—unless it is called off, as many believe it will be because it has no chance to succeed.

Finally, in 1935, if "the crisis" has not been precipitated before, Japan may face a showdown with Soviet Russia—a new Russia, whose armament is increasing daily and which views with mounting alarm the menace of being cut off from the Pacific by Japan.

At the Naval conference, Japan will demand parity with the United States and Great Britain. This, she will claim, is her right as a great power and because upon her shoulders rests the burden of peace in the Orient.

Unless she wins her point, it is indicated, she will withdraw from the Washington and London naval limitation treaties as she did from the League of Nations, and claim a free hand to build any kind of navy she pleases.

Must Save Face

But—and this is important—while she plans to press her right to parity, she apparently does not insist upon actually building a parity navy.

This sounds paradoxical, and is. But to the Oriental mind, nothing could be simpler.

The problem is one of national pride and honor. Nippon does not wish to continue a matter of record that she, a major world power, possesses rights in any way inferior to those allowed others. Once her right is acknowledged, Japan informed, she may agree of her own free will not to avail herself of it.

While Tokyo's naval policy has not been announced, the above represents the views of high naval, military and civil officials who will help formulate that policy.

Prefers Death to "Shame"

Japan today is in the position of a first-class power attempting to maintain her place in the world on the resources of a third-class power. Unless she can acquire additional resources, she must eventually step down to the lower rung.

That she will do this voluntarily is out of the question. She will invite annihilation first. She will either get the "new deal" or Asia will again be turned crimson.

Japan, in her program of expansion, has reached midstream only. The water about her is swift and deep. She must push on to the other shore, or turn back.

Manchuria and Jehol are too much or too little territory for her needs—too much because it will inevitably invite a counter-attack from Russia and China, too little because it lacks sufficient of these vital resources which a vast empire must have.

Seeks Trade Leadership

Maintaining one of the world's big navies.

(Continued on page six)

Bulletins

NEW YORK.—(A)—Otto H. Kahn, international banker and art patron, died of heart disease in his office here Thursday afternoon.

LITTLE ROCK.—(P)—Governor Futrell was informed Thursday from New York that representatives of the direct highway, and toll bridge obligations were satisfied at the steps taken by Arkansas officials toward the refunding of its obligations. It was indicated that a large amount of securities would be surrendered as soon as the refunding bond forms are agreed upon.

ISTANBUL, Turkey.—(A)—Samuel Insull, whose mystery ship the Moliots put in here for provisions early Thursday, will sail during the afternoon for Rumania. It was reported from apparently authentic sources. This was in conflict with repeated warnings from Rumanian authorities that Insull would be arrested if he landed there.

WASHINGTON.—(A)—A congressional investigation of the allegations of Dr. William Wirt, Gary (Ind.) educator, that the "Brain Trusters" are seeking to cause a revolution, was approved Thursday by the house rules committee.

\$650,000 Granted State's Teachers

But It Isn't Enough, and Districts Must Retrench Further

LITTLE ROCK.—(P)—An allotment of \$650,000 for teacher employment aid to financially-distressed school districts for the remainder of this year's school term has been made to Arkansas, the state Federal Emergency Relief Administration (FERA) headquarters was advised Thursday by Director Hopkins from Washington.

The grant is retroactive to February 19, when the new school program was initiated.

Under the terms of the grant, retrenchments in the program already set up will be necessary since the State Department of Education allocated for the expenditure of \$294,000 monthly. No changes can be made, however, until State Director Dyess returns from Washington.

Steve Carrigan in Prosecutor's Race

Hope Attorney Files Pledge for Campaign in 8th District

LITTLE ROCK.—(P)—Steve Carrigan, of Hope, filed his corrupt practices pledge here Thursday as a candidate for prosecuting attorney in the Eighth judicial district.

Mr. Carrigan, of the law firm of Monroe & Carrigan, First National building, was prosecuting attorney from 1922 to 1930, and in 1932 stamped the state for Governor Futrell.

Robbed of \$1,000 in Whisky Trade

White Brothers, South of Prescott, Hijacked by Two Strangers

PRESCOTT, Ark.—Charley and Willie White, brothers, were robbed of \$1,000 late Wednesday afternoon at their home 10 miles south of here.

The brothers reported to officers that they lost their money in a purported whisky deal with two strangers who posed as "big shot" bootleggers.

The strangers, it was reported, offered to sell the White brothers 1,000 gallons of whisky at \$1 per gallon. The four went to the cellar of the Charley White home to sample the liquor.

While there the two strangers demanded to see the money. When the Whites displayed the \$1,000, one of the strangers drew a small calibre pistol.

After taking the money the two strangers fled in their car, a coupe. The money was all in \$20 bills.

Prescott officers searched southern Nevada county late Wednesday and were on the lookout Thursday, but found no trace of the two men.

One of the robbers was described by a deputy as having only one eye.

Spring Hill Will Entertain Kiwanis

Civic Club's Good Will Trips to Be Resumed Friday Night

The Kiwanis club good will visits short Friday night when this civic club goes to Spring Hill to present a program there at the school house at 7:30. Frank Hill, of that community, and members-at-large of the club, has charge of arrangements.

A string band and a quartet are two features of the entertainment. There will be two short talks by club members.

Charles Dana Gibson has charge of club arrangements. The club will meet at Hotel Barlow at 6:30 for dinner, and after a short program will adjourn to Spring Hill.

"In De Land Ob Cotton, Old Times Dar Am Not Forgotten"

Steve Carrigan in Prosecutor's Race

Hope Attorney Files Pledge for Campaign in 8th District

LITTLE ROCK.—(P)—Steve Carrigan, of Hope, filed his corrupt practices pledge here Thursday as a candidate for prosecuting attorney in the Eighth judicial district.

Mr. Carrigan, of the law firm of Monroe & Carrigan, First National building, was prosecuting attorney from 1922 to 1930, and in 1932 stamped the state for Governor Futrell.

Easter Music at 1st Presbyterian

Special Vesper Service by Choir at 5 Sunday Afternoon

A program of Easter music will be presented at First Presbyterian church at the vesper service at 5 o'clock Sunday afternoon.

"Redemption's Song" (Fred B. Holton) will be sung by the church choir, assisted by Miss Helen McRae, violinist; Mrs. H. D. Mayer, E. E. Daniels and Horace Kennedy.

The program follows: Organ prelude. Invocation—Rev. Thomas Brewster. A New Song—Choir, soprano Ogilvie; Mrs. W. Y. Foster Jr., solo, Mrs. W. E. White.

Ride On In Majesty—Men's Unison Chorus. Midnight in the Garden—Soprano and alto duet.

Aud. Ho. Bearing His Cross Went Forth—Horace Kennedy and choir. If I Bear Not a Scar For Him—Mrs. W. Y. Foster Jr.

Now Upon the First Day of the Week—Choir. Tell the Glad Story—Three part Women's Chorus.

Death is Swallowed Up in Victory—Mrs. H. D. Mayer and choir. The Song of the Redeemed—Mrs. W. Y. Foster and choir.

Altus: Mrs. C. C. McNeill, Mrs. H. D. Mayer, Mrs. N. T. Jewell. Bass: R. W. Muldrow, F. N. Porter, E. E. Daniels, Horace Kennedy.

Tenors: N. T. Jewell, C. C. McNeill, George Wilson.

Violin: Miss Helen McRae.

Huguenin's Father Dies in Switzerland

Robert Huguenin, who retired as local J. C. Penney company manager to enter business for himself, received word Thursday of the death of his father, Ulysse Huguenin, 90, at Neuchâtel, Switzerland.

The elder Huguenin died February 12, the news being relayed to the Hope son by his brothers, Ed and Oscar, of Peabody, Kas. The elder Huguenin, farmer and merchant, came to the United States in 1878, returned to Switzerland in 1883, but came to America for the second time in 1901 and remained 24 years, returning to his native land in 1925.

Loco Strikes Car, 2 Escape Injury

W. H. Davis and Daughter in Accident Thursday Morning

W. H. Davis and his daughter Estelle, 20, of 604 Pond street, were slightly injured Thursday morning when a switch engine crashed into their car at a crossing near Community Ice plant.

Mr. Davis, driver of the car, failed to see or hear the approaching train. The car was carried down the track about 15 feet, turning over on its side.

Mr. Davis received a slight cut about the knee. His daughter received two gashes about the left leg that required medical attention at Josephine hospital. She also received a bruised right hand.

Malco Managers Attend Meeting

Lightman and McCord Re-Elected Heads of Movie Company

LITTLE ROCK.—Officials of Malco Theaters Inc., and managers and employees from two states attended an annual meeting Wednesday in the Malco Theater building, North Little Rock, to discuss improvements in programs presented in the 40 theaters operated by the company in Tennessee and Arkansas.

Stockholders also met and re-elected the following board of directors: M. A. Lightman of Memphis, president; M. S. McCord of Little Rock, secretary-treasurer; M. J. Prunski, North Little Rock, vice president; W. A. Hicks and Leo Pfeiffer, Little Rock, Edwin Supinsky of Memphis was added to the board of directors.

Among the managers attending were Mr. and Mrs. Arthur Swanke, of the Saenger at Hope.

U. S. Plans Loans to Heavy Industry

Building Trades and Other Capital Goods Will Be Assisted

WASHINGTON.—(P)—A large scale program to stimulate the capital goods industries is being prepared by the administration.

The details will likely be announced within two or three weeks, it was learned Thursday.

The program includes a gigantic home renovation and building project, and loans to industry.

Hugh S. Johnson, NRA administrator, is mentioned to head the program, there having been talk of his quitting his present post for the new job.

The program is said in authoritative quarters to be the government's recognition of industry's argument that the stimulation of the capital goods industries furnishes the major opportunity for absorption of persons still unemployed.

While further legislation may be necessary it is suggested in official quarters that bills now before congress provide the necessary authority in extending the powers of the Home Owners Loan corporation and the Federal Reserve System or a new set of industrial banks.

James Rider, 86, Dies at Patmos

Well Known Hempstead Farmer Succumbs Thursday Morning

James Rider, 86, well known Patmos farmer and merchant, died Thursday morning at his home after an illness of five months. Mr. Rider was one of the oldest residents of southern Hempstead county.

Indiana born, he moved with his parents to this county a few years following the Civil war, settling near the present site of Patmos.

About 24 years ago he retired from farming and entered the mercantile business. He was engaged in this business when his health failed five months ago.

Funeral and burial services will be held at Macedonia cemetery Friday afternoon at 2:30 o'clock. Elder Lon Cook of Buckner, will be in charge.

Surviving are three sons, H. F. Rider, Hope; E. L. Rider of Washington; L. D. Rider of Patmos. Three daughters, Mrs. John L. Wilson, Hope; Mrs. E. E. Phillips of Hope; and Mrs. Billie Huckabee of Patmos.

Passes Senate by 46 to 39; Finished Save Tax Penalty

House Fixes Penalty at 50 %, Senate at 75 % Market Price

VETO OVERRIDDEN

Disregarding Roosevelt on Vets and U. S. Pay, Means Tax Hike

WASHINGTON.—(A)—The senate Thursday passed the Bankhead compulsory cotton control bill and returned it to the house for action on amendments.

The vote was 46 to 39 for final passage.

The bill, described by its supporters as having administration support, is designed to stabilize cotton prices by limiting production in the coming year to 10 million bales and levying a prohibitive tax on the staple produced in excess of quotas allocated to individual producers.

The house tax of 50 per cent of the market value, or not less than 5 cents a pound, was raised by the senate to 75 per cent, or not less than 8 cents a pound.

Defying Veto Means Tax

WASHINGTON.—(P)—Representative Byrnes, Democratic leader, told newspaper men Thursday it was entirely possible that President Roosevelt would ask for new taxes to meet the expenditures caused by the passage of the independent offices bill over his veto.

The president estimated in his veto message that expenditures for veterans' allowances and government employees authorized by this legislation would exceed the budget estimates by 228 million dollars.

Hope Star

O Justice, Deliver Thy Herald From False Report!

Published every week-day afternoon by Star Publishing Co., Inc., (C. E. Palmer & Alex. H. Washburn), at The Star building, 212-214 South Walnut street, Hope, Arkansas.

C. E. PALMER, President
ALEX. H. WASHBURN, Editor and Publisher

Entered as second-class matter at the postoffice at Hope, Arkansas Under the Act of March 3, 1879.

Definition: "The newspaper is an institution developed by modern civilization to present the news of the day, to foster commerce and industry, through widely circulated advertisements, and to furnish that check upon government which no constitution has ever been able to provide."—Col. R. R. McCormick.

Subscription Rate (Always Payable in Advance): By city carrier, per week 10c; six months \$2.75; one year \$5.00. By mail, in Hempstead, Nevada, Howard, Miller and Lafayette counties, \$3.50 per year; elsewhere \$5.00.

Member of The Associated Press: The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

Charges on Tributes, Etc.: Charges will be made for all tributes, cards of thanks, resolutions or memorials, concerning the departed. Commercial newspapers hold to this policy in the news columns to protect their readers from a deluge of space-taking memorials. The Star disclaims responsibility for the safe-keeping or return of any unsolicited manuscripts.

BEHIND THE SCENES IN Washington

Do We Starve? Is Query of Strikers
Barkley Is Senate Bellowing King ... So They'll Get No New Postoffices ... Bootleggers Turn to Counterfeiting.

BY RODNEY COUTCHER
NEA Washington Correspondent
WASHINGTON.—If you want to know what most of these labor troubles are all about, just gaze upon a few excerpts from a letter addressed to the White House by representatives of 500 strikers at the Harriman-Hosier Mills in Hartman, Tenn.:

"We have been trying to bargain collectively since last October. When the Labor Board ... (held the company) ... had violated Section 7-a, the company's reply was that it would do nothing and awaited action by the courts."

"The company had this brazen proposal: 'Why do you strikers want to be struck? You have federal relief. That is fine and you, National Labor Board, just let us all alone.'"

"What we want to ask you, Mr. President, is this, and though we know you're a heavily overworked man, we propose to stay at your door until we get an answer: Suppose the board send this case to the Compliance Board, where it sent Budd's case long ago, or to the Department of Justice, where it sent Weir's case December 18 and then again two weeks ago."

"We understand it may take six months to a year before the supreme court would get through with such cases."

"What are workers who really believe your administration's laws and acts on collective bargaining last June—workers like us—to do? You told us to take our demands for collective bargaining to the board and many of us have had to go on strike to get our demands really considered."

"When we do that, must we get ready at the same time, if an employer refuses us, to settle down to a year's starvation battle? Our courts in Harriman have thrown us in jail, some apparently for being witnesses before your national Labor Board."

"If your present governmental powers are helpless, then tell us."

"Our people still have enormous faith in you, but men and women who have had five months of being beaten down and pauperized deserve a plain answer."

(The case has been referred to the Compliance Board and the Department of Justice.)

King of Bellows
Senator Barkley of Kentucky has the most powerful lungs in the Senate—and that's no mean distinction. His only rival is Huey Long in some of Huey's most impassioned moments.

Barkley proved his right to the bellowing title beyond doubt, storekeepers of Pennsylvania avenue half a mile away agreed, when he defended the right of Democrats to patronage in opposition to the successful Norris amendment which barred political considerations in appointments to the Home Loan system.

No New Postoffices
Hundreds of towns are demanding: "Where's that new postoffice we were going to get?" Often they ask congressmen who make promises. The congressman find all kinds of excuses.

A prominent citizen in a midwestern town writes to say that the congressman stirred up a new postoffice there, that postal inspectors came, and that FWA actually located the building.

But he believes local landlords, who want to keep renting quarters to the government, secretly had it blocked.

The PWA answer, which may be typical, is that this is a town of 5000 whose postal revenues and population were found to be decreasing. Rent now costs \$1680 a year, whereas carrying charges on the new building would be \$6000. So, said Mr. Ickes, what the heck?

Leggers Turn Corners
Watch those \$10 bills! Many bootleggers have gone out of business and their disappearance from the liquor trade has been followed by a boom in the counterfeiting industry.

The Secret Service suspects a connection. It thinks some criminal elements must have made elaborate preparations, as much of the bad money is hard to detect and even passes through the banks to the Federal Reserve banks before it is spotted.

(Copyright, 1934, NEA Service, Inc.)

A cage baked in 1879 for a brother of President Fillmore is still untouched and on view at Lagrange, Ind. And they say only our mothers and grandmothers knew how to cook.

Mrs. Roosevelt has brought the president a straw-craddled bottle of 40-year-old rum, from Puerto Rico. She must want the bottle.

YOUR CHILDREN

By Olive Roberts Barton

Every Child Should Make Friends to Overcome Shyness, Loneliness

"Once he has a real friend he will be the proudest person on earth." So Olive Roberts Barton says of the lonely child in this article in her series on Child Training.

A child needs a variety of friends. And he will have them if he has been conditioned to like people and to see the good in them.

But his experience as a little fellow may have been unfortunate. Perhaps he has been teased to death by his older brothers or ridiculed by them. Or it may be that nothing in particular has happened except that he has never adjusted himself to people outside his family.

If this is the case he may be timid and shy, seek his own society and stay away from the crowd on the street that is having such a good time.

With such a child the forcing method is sometimes disastrous. To compel him to go out and join the others, or insist that he be friendlier with the children at school.

Need of Social Contacts
What is the mother to do then? He has to learn some time to overcome his self-consciousness for this is what it is, and he can't grow up to be a reclusive if he is to have any luck in the world. Besides he needs social contacts to develop him, to round him out and to teach him to forget himself.

The best way is not to talk about it at all or let him know you are worrying about his solitary condition.

Look about and observe one child, if you can, either boy or girl, who seems to be a kindly, friendly, friendly little person. Not a dominating child, or an older one, a child about his own age or younger.

What he needs is to have his estimation of himself set up, for strange as it may seem, his self-esteem is not so prompt to be self-sufficient but the reverse. It is a form of selfishness, too, in a way, but the better kind. It is "self" trying to save itself and not daring to chance anything that will kick it down lower than it is.

Such a child will not be likely ever to have wide friendships. He will attach himself to a group here and there of whom he may become extremely fond, but he will have a tendency to avoid the untied. He will get along very well with his few friends, too. To be a good fellow and know every body doesn't mean much, after all.

Meeting Friends
But we're speaking now of this first little friend. How can you get Jimmy to accept him or her? Well, it takes resource. Again I suggest the medium of interest. Work it through something he is very much interested in. Ask the other child in and with you as a third his favorite game or play book may have the way.

Once he has a real friend he will be the proudest person on earth. It is pathetic to watch the lonely child expand under the first real friendship.

When this has gone on for a while try to add another, still keeping in mind that his trust in people has to be nursed and therefore this child, too, should be no more dominating than the first. What is important now is to produce numbers.

Then, little by little, work toward the group. When he gets into group play, he will have to encounter the stronger type. He needs this because he cannot go on forever meeting only kindly people who will give in to him, or even be square.

Forming of Tastes
But in the group he will know there are some who like him and whom he will like. He will mix with the others and not take them too seriously. He may even keep going, once he has had his start, and become one of the leading spirits himself, although it is not likely.

If he was not born to be a leader, it does not matter. We have all seen men and women who had no qualities of leadership or even average friendship who did amazingly big and important things. I set no great store by leadership. But I believe people are happier and more confident if they have some real friends.

This is why I think every child should have the chance to make them. Playmates are the incipient citizens he will have to mingle with later—he needs them and they expect certain things of him. The kindest thing we can do is to draw him out of himself and have him learn that experiences are better shared.

NEXT: The Strong Will.

Your Health

By DR. MORRIS FISHBEN

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

Scientists Still Study Value of Exercise

The argument as to whether exercise is beneficial to your health might seem trite to you, yet it continues in most of the scientific publications principally because investigators only now are beginning to study the chemical and physiological changes which occur in the body after exercise.

There seems to be no absolute evidence that physical training produces a condition of the body which helps to protect it against disease. In general, if you have had good physical training, you would have a good condition of the blood, a good condition of the lungs and of the breathing apparatus and you would be less likely to become fatigued than one who is not in training.

There is a general belief that the hardy mountaineer, who is engaged constantly in physical activity, is more healthful than the lazy inhabitant of the tropics who sleeps through large portions of the 24 hours. But we have nothing to prove that the mountaineer lives longer or in general has better health than the "lazy-bones" who sleeps in the sun.

There are too many associated factors, such as exposure to climate, different conditions of diet, and similar matters which have to be taken into account.

During the last 50 years there has developed a new attitude toward physical activity. In previous generations, exercise was associated with moral discipline.

Modern exercise is joyful, vigorous, full of spirit; it includes competition, play, and relaxation. Regardless of its effects on health, its effects on the mind are exceedingly useful.

There is, of course, a good deal to the general impression that people who exercise regularly are more healthful than those who do not, at least up to middle age. The general health of the body depends on a great many factors, besides exercise of the muscles.

Exposure to climate, the provision of essential food substances, suitable hours of rest and mental relaxation are no doubt as important as muscular exercise in human health.

Good posture is important in relationship to health, and physical exercise certainly is an aid to good posture.

If scientific study proves any one thing in relationship to exercise, it establishes the fact that a fair amount of regularity is important.

If you exercise once a week, and then delay for two or three weeks before trying again, you are not likely to get much out of your exercise. If you work all week in your office and then play 30 holes of golf on Sunday, you do not do yourself more harm than good.

An eminent British authority asserts that the chief value of physical training is development of morale.

Nevertheless, because there is a general impression that physical exercise is important to human health, he recommends that there be more scientific studies of the effects of exercise on the blood, the lungs, and the general resistance of the body to various types of diseases.

No Basis For Beliefs About Birthmarks

A birthmark may be a useful thing for purpose of identification, or it may be of particular value to you as a beauty spot, if it happens to be a dark dot on your cheek, chin or shoulder blade.

But there are several types of birthmarks, and about as many superstitions regarding them. And you'll find very few people without birthmarks at all.

Whenever a baby has a strawberry mark, its mother is likely to remember an uncontrollable appetite which she had for strawberries, which was unsatisfied.

If the baby has a hairy and pigmented mole, the mother may have some memory of being frightened by a mouse or a dog. Sometimes a baby is born with a skin that resembles spots that of a fish, and there are innumerable superstitions about fish.

But all these birthmarks are merely malformations of the tissues, and they are not related in any way to mental causes.

Scientists Still Study Value of Exercise

The argument as to whether exercise is beneficial to your health might seem trite to you, yet it continues in most of the scientific publications principally because investigators only now are beginning to study the chemical and physiological changes which occur in the body after exercise.

There seems to be no absolute evidence that physical training produces a condition of the body which helps to protect it against disease. In general, if you have had good physical training, you would have a good condition of the blood, a good condition of the lungs and of the breathing apparatus and you would be less likely to become fatigued than one who is not in training.

There is a general belief that the hardy mountaineer, who is engaged constantly in physical activity, is more healthful than the lazy inhabitant of the tropics who sleeps through large portions of the 24 hours. But we have nothing to prove that the mountaineer lives longer or in general has better health than the "lazy-bones" who sleeps in the sun.

There are too many associated factors, such as exposure to climate, different conditions of diet, and similar matters which have to be taken into account.

Home Club

Columbus

The Columbus Home Demonstration club met at the home of Mrs. T. L. Johnson at 2:30 o'clock Tuesday afternoon with 35 members present. The meeting opened with a devotional reading by Mrs. J. O. Johnson. After prayer, led by Mrs. J. S. Wilson Sr., the meeting was turned over to the secretary, Miss Mildred Johnson. The minutes of last meeting were read and approved, after which the roll was called and 12 new members enrolled.

Mrs. C. R. White, president, then appointed Mrs. K. G. Dudley as clothing leader; Mrs. R. C. Stuart as landscaping leader, and Mrs. J. S. Cooney as recreational leader. After the business meeting an open discussion was had on the canning kitchen led by Miss Griffin. Mrs. Griffin then introduced Mr. Anstien. He gave a very interesting lecture on "Gardening and Landscaping."

After a very short social hour, during which hot chocolate and sandwiches were served, the club adjourned. The next meeting will be held at the home of Mrs. J. R. Autry on April 17. Everyone is invited to attend the meeting.

they can be treated successfully by repeated freezing with carbon dioxide snow.

A method much used for the non-injury and pigmented moles is the electric needle, which destroys the blood supply at the bottom of the mole and thus causes it to disappear.

Belton

Sunday school and B. Y. P. U. were omitted here on account of the rain Sunday.

C. T. Dotson was a business visitor to Nashville Tuesday.

Mr. and Mrs. J. L. Eley were visitors to the Experiment farm Wednesday.

Mrs. Neighbors of Highland is visiting her daughter Mrs. Otis Daniel at this time.

W. F. Eley was a business visitor in McCallskil Friday.

Bro. and Mrs. Chandler of Hope were the dinner guests of Mr. and Mrs. John Siddons and called on several friends here Wednesday.

J. L. Eley and daughter, Louise, were in Nashville Monday.

Jimmie Dee Hampton of McCallskil was the Monday night guest of Mr. and Mrs. J. V. Hampton.

Every one has a special invitation to the singing here Sunday afternoon.

Miss Mary Leslie of Elvins was the week end guest of her parents Mr. and Mrs. S. F. Leslie.

Mr. and Mrs. Dee Chalmers of Nashville were visiting relatives here Sunday.

W. E. Davis was a business visitor in Nashville Thursday.

Mrs. Nettie Wardlaw and Mrs. Glen Eley were the Thursday evening callers of Mrs. J. L. Eley.

J. L. Eley was a business visitor in McCallskil Monday.

Hinton

There are still several cases of measles in this community yet. Misses LaFrance Simmons and Maxine Smith are confined to their homes on account of having measles, also Mr. Weaver Lafferty has measles.

Tilman Huett of Garland City was visiting in this community Sunday night and Monday.

Gilbert Elledge spent Saturday night with J. D. Smith.

Finis Odum and Leslie Fromby were dinner guests in the W. E. Simmons home Sunday.

We are sorry to report that little Ruth Ellen Gibson has the whooping cough.

Sunday school and singing Sunday morning and Sunday night were omitted on account of bad weather.

Mrs. Buster Camp and Miss Murrell Camp made a pleasant call on Miss LaFrance Simmons Monday afternoon.

Mr. L. E. Fornby called at the W. E. Simmons home Sunday morning.

Tilman Huett of Garland City and Horace Elledge spent Sunday night with Travis Simmons.

Nathan Elledge spent Sunday night with Gilbert Elledge.

Several from this place attended the play in the school auditorium Friday night.

Mr. and Mrs. Will Fornby called at W. E. Simmons' Tuesday afternoon.

Albert Smith of Shover Springs called on Tommy Gibson last Tuesday afternoon.

Roy Elledge spent Saturday night and Sunday with his mother, Mrs. Lawson Cox and Mr. Cox and family.

SOCIETY NEWS

Mrs. Sid Henry Telephone 321

Today is ours! Dhat'er tomorrow brings
Of sweet or bitter for the harvesting.
Let us be glad today, and gladly bear
Full store of flower and fruit of all
things fair—
Mete to adorn the sovereign Shrine of
Spring.
Too soon the rose will fade, and youth
take wing!
Let us be glad! Nor heed the reckon-
ing
For all the year's sweet secrets that
we share—
Today is ours!
And though Hope fade in autumn's
withering,
Life will yet leave us one unbroken
string—
Rich in old memories of days that
were,
Old dreams too dear to die; then need
we care
How sad a song the still tomorrow
sing?
Today is ours!—Selected.

spent the past two months in San Antonio, Texas, is home for a visit with her mother, Mrs. Aline Johnson and other home folks.

The Brookwood P. T. A. are sponsoring an Easter egg sale, telephone your orders to either Mrs. G. T. Cross, 910 or Mrs. S. L. Murphey, 261. They are 25c per dozen.

Mrs. Wilbur Jones of Ozan was a Thursday visitor in the city, attending a meeting of the executive board of the Pat Cleburne chapter U. D. C. of which organization she is president.

We are pleased to report that the condition of Dr. Will Youmans, who has been seriously ill for the past ten days at Josephine Hospital, is reported as being very much improved.

Miss Whitfield Cannon, a student in Columbia University, New York, will spend her Easter vacation with a schoolmate, Miss Eva Stromwall in Bridgewater, Mass., she will also visit in Boston and Cape Cod before returning to New York by boat.

Mrs. W. R. Webb and daughter, Katherine of Detroit, Mich., arrived Wednesday for an extended visit with Mrs. Webb's sister, Mrs. E. G. Coop and Mr. Coop.

The condition of Mrs. Robert Wilson, who underwent a major operation at the Josephine hospital on Wednesday is reported as being satisfactory.

Mr. and Mrs. Harry Shiver will have as week end guests, Mr. and Mrs. J. F. Buchley of New Edinburgh.

Jimmie Harbin a senior in Hendrix college, will arrive Thursday night to spend the Easter vacation with his parents, Mr. and Mrs. J. M. Harbin and grandmother, Mrs. Florence Turner.

Miss Marie Schirmer of Nashville, niece of R. V. Herndon, underwent an operation at Josephine hospital Wednesday.

Among the many attractive spring parties, much praise was given the one on Wednesday afternoon given by Mrs. Fred White, Mrs. Harry Shiver and Mrs. Ernest O'Neal at the home of Mrs. White on South Main street. A quantity of lovely spring flowers emphasizing the Easter motif adorned the rooms where eight tables were arranged for bridge, with the appointments still further observing the Easter motif. In the score count, the trophies went to Mrs. A. B. Sprag—rest in industry.

gins, Mrs. Bill Smith and Mrs. Mary Turner. Mrs. Bolton of Little Rock was an out-of-town guest. Following the game, the hostesses served a most tempting plate lunch.

Mr. and Mrs. Mueller-Pearse of Bremen, Germany, will stop in Hope Thursday afternoon for a short visit to Mr. and Mrs. T. S. McDavitt and Mr. and Mrs. J. W. Strickland and route to New York where they will sail April 3, for Bremen. Mr. Pearse is representing Albrecht-Mueller-Pearse company, reported as the largest cotton concern in Germany. They have spent the past two months visiting in Arkansas, Louisiana and the Carolinas.

GLORIFYING YOURSELF

By Alicia Hart

Try These Wall Exercises as Posture Aid

The first lesson toward a diploma in graceful bearing is how to stand correctly. The course will include lectures on walking and also quite a good deal of home work.

Let's begin. Will a girl in the front row please step to the front of the room? We'll use you as an example. Stand about one foot from a flat wall, feet slightly apart, with back and shoulders resting against the wall.

Your neck and all of the backbone, except the last two vertebrae, should be pressed hard against the wall. Those last two links must turn upward and outward, eliminating the hollow in the back. As you turn them out and up, feel the muscles of your stomach contract and flatten. Take a deep breath, lifting the chest as you inhale and then, bending the knees slowly and exhaling slide down the wall until you're in a squatting position. Be sure to keep the backbone in a straight line as you slide. Doesn't it feel good to take the misplaced curve out of your back?

Now slide back up to standing position, inhaling deeply as you rise. Keep the stomach pulled in, in, in. You'll find that it isn't hard to flatten the stomach, once you've removed the hollow in the back. And that posture exercise is your home work for next week. Practice it several times a day. It will help you to get used to the idea of keeping the backbone straight when standing or walking.

In England there are about 18,000 accidental deaths a year. About 6000 chosen still. In the score count, the trophies went to Mrs. A. B. Sprag—rest in industry.

Today's Pattern

A morning frock and apron set that you will enjoy. It is easy to make and easy to wear.

Pattern 201

HERE'S a smart frock and apron set that you'll find surprisingly easy to make in either gingham or cotton print. The designs are in seven sizes, 34 to 46 bust. Size 38 requires 3 5-8 yards of 36-inch fabric for the dress and 1 1-4 yards for the apron, plus 5-8 yard contrast.

To secure a PATTERN and simple sewing chart of this model, tear out this sketch and mail it to JULIA HOID, 103 PARK AVE., NEW YORK, N. Y., together with 15 CENTS IN COIN. Be sure to enclose, on a separate sheet of paper, YOUR NAME, FULL ADDRESS, YOUR SIZE, THE NUMBER OF THIS PATTERN (No. 201), and mention the NAME OF THIS NEWSPAPER.

BANKHEAD BILL

(Continued from Page One)

were of service origin. The president has held out for temporary restoration of these veterans to the rolls pending review of the cases to eliminate the underserving.

It also means government employees who had their salaries cut 15 per cent by the Economy Act will get back five per cent, or \$28,000,000, as of February 1 to July 1, and another five per cent for the next fiscal year, or about \$126,000,000.

In his veto message, the president said the bill provided \$28,000,000 more than budget estimates for the new fiscal year without suggesting ways of producing new revenues to meet the added expense.

The bill supersedes regulations issued Tuesday by the president restoring, pending review, 29,000 World War presumptive cases at 75 per cent of former compensation, and thousands of Spanish war veterans and their widows and orphans at a like 75 per cent, who were stricken from the rolls because of lack of proof of service origin for their injuries.

The Roll Call

The roll call on the motion to override the veto follows:

Republicans voting to override: Austin, Barbour, Borah, Capper, Carey, Coudens, Cutting, Davis, Dickinson, Fess,razier, Gibson, Goldborough, Hale, Hastings, Hatfield, Johnson, Kean, Keyes, LaFollette, McNary, Norbeck, Norris, Nye, Patterson, Reed, Robinson, Indiana; Schall, Steiwer, Townsend, Vandenberg, Walcott and White. Total, 33.

Democrats: Adams, Ashurst, Bachman, Bone, Bulow, Caraway, Clark, Copeland, Costigan, Dill, Duffy, George, Hatch, Hayden, Landon, Long, McAdoo, McCarran, McGill, McKellar, Neely, Overton, Reynolds, Russell, Smith, Thomas, Oklahoma; Thomas, Utah; Walsh and Wheeler. Total, 29.

Farmer-Labor: Shipstead. Total, 1.

Grand total for overriding, 63. To sustain the president: Democrats: Bailey, Bankhead, Barkley, Black, Brown, Bulkley, Byrd, Byrnes, Connally, Coolidge, Dietrich, Fletcher, Glass, Gurnea, Harrison, King, Logan, Murphy, O'Mahoney, Pope, Robertson of Arkansas, Shepard, Stephens, Thompson, Tydings, Van Nuys and Wagner. Total, 27.

The other six senators were paired as follows: Trammell, Democrat, Florida, to sustain, paired with Erickson, Democrat, Montana and Pittman, Democrat, Nevada, for overriding; Lewis, Democrat, Illinois, to sustain, paired with Metcalf, Republican, Rhode Island, and Herbert, Republican, Rhode Island for overriding.

Business Opposes Blanket Hour Cut

Asserts Present Codes Should Be Given Further Trial

WASHINGTON—(P)—Spokesmen for a major division of coded business Wednesday advised Hugh S. Johnson, Recovery administrator, against a blanket reduction of working hours

and corresponding wage increases. Retailers, wholesalers and consumers' service representatives told the NRA chief that increased employment could be expected from further trial and "proper enforcement" of present codes.

Any "arbitrary edict" imposing shorter hours and higher wages, they said, "would be violative of the spirit of the partnership arrangement in which business and government have engaged."

"The principle of self-government by business would be seriously jeopardized," the group added.

If the Recovery Administration is not willing to give present codes further trial, the committee suggested that division NRA administrators and code authorities should begin studies of individual industries to determine whether they could increase employment.

In such studies it was urged that consideration be given to wages and hours prevailing in other similar industries to the amount of re-employment already attained by the industry under study, its financial ability to assume additional burdens and the availability of additional workers.

The report was made by the Distribution and Consumer Trades Committee, selected to comment on recovery weaknesses which Johnson pointed out to the recent conference of code authorities here.

The committee recommended all fair

Stunt Night Friday for Yerger School

The Literary society of Yerger High School will present their Stunt night program Friday at 7:45. It promises to be the most interesting stunt program given by the students in years. Some of the numbers are "Yesterday and Today," "Mamma's Boy," "Toolish Answers," "The Lie Detector," "Shakespeare and many others. An evening full of fun awaits all who attend this program.

trade practice provisions be extended to include merchants in towns of less than 2,500 population, who are exempt from the codes by presidential order.

Code authorities represented on the committee included: National retail, retail drug, food and grocery, wholesale dry goods, wholesale hardware, wholesale druggists, laundry, restaurant, cleaning and dyeing and hotel.

Only the Center Leaves... they are the Mildest Leaves

Luckies are All-Ways kind to your throat

WHEREVER the finest tobaccos grow—in our own Southland, in Turkey, in Greece—all over the world, we gather the very Cream of the tobacco Crops for Lucky Strike. And that means *only the center leaves*. Not the top leaves—because those are under-developed—not ripe. Not the bottom leaves—because those are inferior in quality—they grow close to the ground, are coarse, dirt-covered, sandy.

The center leaves are the mildest leaves—they taste better and farmers are paid higher prices for them. These center leaves are the only ones used in making Luckies. Then "it's toasted"—for throat protection. And every Lucky is fully packed with these choice tobaccos—made round and firm, free from loose ends—that's why Luckies do not dry out. Naturally, Luckies are all-ways kind to your throat.

"It's toasted"
✓ Luckies are all-ways kind to your throat

Only the Center Leaves—these are the Mildest Leaves

NOT the top leaves—they're under-developed—they are harsh!
They taste better

NOT the bottom leaves—they're inferior in quality—coarse and sandy!

Our normal flying in the army is, in many instances, more hazardous than any aerial or other commercial operations. — Maj. Gen. Benjamin Foulois.

I'd rather catch a wolf than make a talk. I'm more at ease with a wolf. — Jack Abernethy, famous "wolf tamer" of frontier days.

COMMISSIONER'S SALE

NOTICE IS HEREBY GIVEN, That in pursuance of the authority and directions contained in the decretal order of the Chancery Court of Hempstead County, made and entered on the 5th day of March, A. D. 1934 in a certain cause (No. 2629) then pending therein between The Federal Land Bank of St. Louis, Missouri, complainant, and Wade Cheatham, et al defendants, the undersigned, as Commissioner of said Court will offer for sale at public vendue to the highest bidder, at the front door or entrance of the Court House in the Town of Washington, Arkansas, in the County of Hempstead, within the hours prescribed by law for judicial sales, on Friday, the 20th day of April, A. D. 1934, the following described real estate, to-wit:

The Northwest Quarter (NW 1/4) of the Southeast Quarter (SE 1/4) of Section Nine (9) in Township Twelve (12) South, Range Twenty-six (26) West of the fifth principal Meridian, containing forty (40) acres, more or less, in Hempstead County, Arkansas.

TERMS OF SALE: On a credit of three months, the purchaser being required to execute a bond as required by law and the order and decree of said Court in said cause, with approved security, bearing interest at the rate of eight per cent per annum from date of sale until paid, and a lien being retained on the premises sold to secure the payment of the purchase money.

Given under my hand this 28th day of March, A. D. 1934.

DALE C. JONES
Commissioner in Chancery.

Watched by Russia and U. S. A.

While Japan exerts every effort to meet the crisis which its statesmen say the nation will face in 1935, Uncle Sam and Russia closely watch developments in the Far East.

JAPS PREPARE (Continued from Page One)

gest armies, 260,000 effectives, and demanding a navy second to none, Japan also is making a supreme bid for world trade leadership. This colossal program requires vast reserves in peace or war, of steel, oil, coal, rubber, cotton, sugar, various chemicals and metals none of which is found in sufficient quantity in her new domain.

Without oil, modern armies and navies are practically helpless. Japan occupies 12 places in oil production after the United States, and 11th after Soviet Russia. The United States produces 345,000,000, Russia 160,000,000 and Japan 2,000,000 barrels annually.

Even counting the oil she gets from the northern half of the Island of Sakhalin—leased from Russia and undependable in time of war—Japan produces only a fourth of her peace-time needs.

Manchuria has no known free oil. There is plenty of shale but its oil content is low.

Coal, Iron Quest Futile
Japan had hoped to find a supply of iron and coking coal in the new territory, but again seems doomed to disappointment. The ore is of poor quality and she still imports nine tons for every one she produces.

The story of rubber, cotton, and other essential materials is more discouraging still.

Japan's grandiose dream of empire is based upon her scheme to become another Great Britain, turning raw materials into finished products and shipping them to the four corners of the earth in Japanese bottoms.

But once more she seems to have arrived on the scene a little too late, though for the moment her foreign trade is booming. Even Britain is regarded as having long since passed her peak in this line of business and today is facing a reorientation of her national economy.

Builds House on Sand
Japan, therefore, seems to be building, at least partly, on sand. The conditions which made England a doubtless gone forever.

And clouds are already darkening the Japanese trade horizon. At this writing 21 countries are taking steps to curtail Japanese imports.

With emigration and exports both checked, Japan almost certainly will seek to carve out a still bigger empire

for herself. With its borders she will endeavor to find, not only the raw materials necessary, but a subject population to absorb her surplus goods.

It is either that or return to the status of a hungry little island teeming with people and racked with poverty.

NEXT: America viewed through Japanese eyes as the nation which bars her path of expansion to a greater empire.

El Dorado Lions Reach Semi-Finals

Arkansas Girls Survive Taxicab Crash and Win Another Game

WICHITA, Kan.—(P)—The El Dorado (Ark.) Lions, who were shaken up but not severely injured in a taxicab collision during the noonday A. A. women's basketball tournament parade, drove into the semi-finals Wednesday with a 39-23 victory over the Tupelo (Miss.) Red Wings.

Tupelo was in command through the first part of their third round game and had a 12-3 margin at the end of the first quarter. The Lions tied the count to 12 and then trailed by five points, scored on a free throw and goal by Case and a basket by Rice. Gammill and Mann came back with a pair of goals and Patterson tied the score at 17 with a free throw.

From then on, the Arkansas team was ahead, by 24-18 at the half and 29-20 after the third quarter. Patterson, Lion forward, set a new high in free throwing, with 18.

Miller, Lion guard, suffered the loss of a tooth in a collision and another girl's nose was scratched.

Tulsa Business College, a prime favorite, also entered the semifinals with an easy conquest of the Dale (Okla.) Independents, 33-21.

A new vaccine for sleeping sickness is strong enough to protect mice against powerful doses of the disease germs. What the mice want is protection against cats.

Easter Customs around the World

Easter traditions in Mexico center around the destruction of Judas, a symbolic tradition that amounts almost to a ceremony, shared by persons of all ages and all classes of society. Effigies of Judas are carefully prepared in advance, usually of cardboard stuffed with firecrackers, and on the day before Easter are hanged or burned, or both. Even prisoners in jail are permitted to destroy their Judases if they choose.

NEXT: A quaint Easter custom in rural England.

Kansas City Opens War Upon Killers

Sheriff Promises Cleanup Following Bloodshed in City Election

KANSAS CITY.—(P)—Warfare was declared on gunmen and hoodlums Wednesday as the aftermath of four killings and other acts of terrorism in the city election Tuesday in which the "Little Tammany" Democratic organization crushed a citizens-Fusion ticket.

Sheriff Thomas B. Bash og Jackson county ordered arrests in an effort to bring to justice those responsible for gunplay, slugging and kidnappings.

The Democratic organization headed by Big Tob Pendergast made its greatest demonstration of power, re-electing Mayor Bryce B. Smith and retaining six of the eight council seats and the two municipal judgeships. Smith polled 141,117 votes to 81,749 for the citizen-Fusion candidate, Dr. A. Ross Hill, "anti-boss" Democrat and former president of the University of Missouri.

Despite the overwhelming victory of the Democratic organization, sharp dissension developed among several factions which followed Pendergast. As a result, the machine was creaking in spots, forecasting a realignment of power in several districts.

City Manager H. F. McElroy was expected to be reappointed for the next four years.

Sheriff Bash, a Democrat, termed the violence Tuesday "the most distasteful crimes conceivable."

"What happened—gangsters and hoodlums roaming the city in high-powered automobiles, intimidating citizens and committing murder—will be stopped," he said. "We are going to the bottom of these crimes. I don't care about politics."

Directors in Tulsa Bank Are Cleared

Harry F. Sinclair and 27 Others Vindicated in Court

TULSA, Okla.—(P)—Harry F. Sinclair, oil magnate, and 27 other former directors of the Exchange Trust Company of Tulsa, were cleared of all embezzlement charges against them Wednesday.

Judge Bradford Williams dismissed the 10 remaining counts after more than two weeks preliminary hearing. Seven other counts were dismissed last Friday.

The directors had been accused of juggling accounts illegally, but the state disclaimed any attempt to prove that the \$200,000 involved had been appropriated for their own use.

The defense contention was that the directors operated under state laws that had not been tested in any court and were justified by the instructions of a state bank examiner.

The trust company, largest state banking institution in Oklahoma, closed last June with trust and other deposits totaling \$23,000,000 on the books.

Morrilton Institution Seeks Old Galloway College Plant

MORRILTON, Ark.—Harding college, Church of Christ academy and four-year college here will be moved to Searcy at the close of the present college year if satisfactory arrangements can be made for the Galloway College property there and a settle-

Harding College May Go to Searcy

ment is consummated on the mortgage on the local real estate.

This was decided at a meeting of the executive board here following enthusiastic reports of the Searcy project by President J. N. Armstrong and Dean L. C. Sears and others of the college who have been working on the Searcy deal for several weeks.

Necessity for additional buildings and equipment if both the academy and four-year college are maintained, is the sole reason for the proposed move, it was said by President Armstrong, who spoke warmly of the support Harding college has received from Morrilton in an open meeting of the board. Although the papers have not been signed, the Harding board hopes to obtain the Galloway college plant, abandoned by the Methodist conference of Arkansas two years ago, for \$75,000, payable over a period of years at a low rate of interest.
